Last season our visits to ENO took in La Traviata, La Boheme, The Marriage of Figaro and the must see Opera of 2006/07 season: Madame Butterfly.

This season we open on Friday 5th October with Bizet's CARMEN; a tragic tale of love, passion and rejection. It is one of the most dramatic examples of a masterpiece being misunderstood and misjudged in it's creators lifetime.

Next is a new production of Verdi's AIDA, frustrated and tragic love in exotic ancient Egypt, last performed at the ENO 20 years ago. If anyone should need a convenient one-word definition of grand opera, then the word Aida would suffice; a dramatic plot, an exotic setting, spectacular use of orchestra and literally hundreds of extras. Our visit is Saturday 24th November.

The expectation is that you are able to swim at least one of the four strokes competently (Front Crawl, Backstroke, Breaststroke, Butterfly) and continuously for between 6-8 lengths of a 25m pool. The sessions will be coached and structured to give pupils an opportunity to improve their stroke technique and stamina. Pupils should find this an invigorating and challenging session and regular attendance should see their levels of fitness improve. Students in the swim team shall compete against other schools on a regular basis throughout the year. Although weekly training brings no additional

cost, students will be expected to buy their own costume and goggles, as well as the school Swim Team shirt.

Wine is more popular than ever. More and more people enjoy a good glass of wine and would like to learn more about wine. One of the nice features of wine is the experience and romance around producing and drinking wine. I want to communicate these feelings to the next wine enthusiasts. The Wine Course will follow as a series of 10 units (excuse the pun) In an encyclopaedic tour around the wine producing countries of the world we'll capture the flavour of each region's wines and recommend the best names to look out for. Everything from production and tasting to storing of wine is covered. Each of the 10 sessions is centred on a major grape variety with other important wine topics woven in where appropriate.

Year group: Removes

Equipment needed: All provided

Number of places: 22

Members of Common Room: Mr Ali, Miss Duncan and Mr Fraser

The Remove pupils are presented with the challenge of running their own business as part of the national Young Enterprise scheme. Guided by 'link teachers' and a 'business adviser', the 22 pupils begin the year with an election to determine suitable personnel for director roles of the newly founded 'Mill Hill Achievers' company. After a series of boardroom style discussions the team choose a business idea to pursue. Despite only being in the Remove year, the pupils tackle practical tasks in relation to the marketing, finance, operations and human resources functions of a newly established enterprise. With the obligation of raising share capital, maintaining company accounts and paying tax, the pupils are stretched and tested with the objective of gaining real profit for their real business. A percentage of the company's overall profit is donated to Alford House.
